**2012 Yukon River Summer Salmon Fishery News Release #50
Summer Announcement #44, Subdistrict 4-A Commercial Fishing Period #13
Districts Affected: Upper Yukon Area**

Summer chum salmon passage at Pilot Station sonar through July 11 is estimated to be approximately 2.0 million fish, which is above the historical median of 1.3 million fish for this date.

The preliminary commercial harvest in District 4 through July 10 is approximately 16,000 summer chum salmon.

New regulations adopted by the Board of Fisheries in spring of 2012 allow the department to open summer chum salmon directed commercial fishing periods in Subdistrict 4-A during time of Chinook salmon conservation with fish wheels only. Fish wheels must be manned at all times during operations, and all Chinook salmon caught in the fish wheels must immediately be released to the water alive.

Subdistrict 4-A (from $\frac{3}{4}$ miles downstream of Old Paradise Village upstream to Cone Point):
Commercial fishing will be open for a 168-hour fishing period:

Period #13: 8:00 p.m. Friday, July 13, until 8:00 p.m. Friday, July 20

Fishermen will be notified by July 19 regarding additional commercial fishing periods.

Commercial fishing will be restricted to fish wheels only that must be manned at all times of operation. All Chinook salmon caught in the fish wheels must be immediately returned to the water alive. Commercial fishermen should coordinate with the buyer on a daily basis regarding scheduling deliveries. All salmon harvested during commercial fishing operations must be recorded on a fish ticket at the time of sale. Salmon harvested and not sold should be recorded on the fish ticket as "not sold". These commercial fishing periods do not affect current subsistence

management actions and fishing schedules.

Recorded fishery announcements and updates will be available 24 hours a day at 1-866-479-7387 or 459-7387. If you have any questions regarding this report, please call the Emmonak ADF&G office at 949-1320 or the Fairbanks ADF&G office at 459-7274.

This has been an announcement by the Alaska Department of Fish and Game in cooperation with the U.S. Fish and Wildlife Service.
